Issued every Tuesday morning in time for the Mails.

The Paris Man-Milliner.

Nobody goes to Woerth but Americans, and as Americans are to the great man-Milliner a mine of wealth, he works that mine as if it were inexhaustible. A lady going to Woerth has nothing upon which to calculate as the probable sum of his bill, for his charges are altogether arbitrary and with no reference whatever to the cost of materials or labour employed.

An American lady lately gave an order for a black silk dress to be made in the scant style of the First Empire, now worn, in which ladies gave no impression that they glide, as in the days of more ample draperies, but prove conclusively, especially when the wind blows, that they are bipeds; as are angels and men. The dress was sent home very plain, very scant, and evidently made of so little material that the fair owner was completely astounded by the magnitude of the bill that came with it. Indignant at such high-handed imposition, she went to Woerth and expostulated. But the king dress-maker took lofty grounds and informed her that she paid not for material, for labor, nor style, but for the unspeakable glory of "wearing his name."

She went home and wrote him a note, saying that as the honor of wearing his name was to expensive a luxury for her purse she would countermand an order for several thousand dollars' worth of dresses concerning which she had consulted him, and would advise her friends to seek a more conscientious modiste. That same day she received from Woerth an elegant lace overdress, in value far exceeding the silk concerning which she had demurred, with a note saying that the modiste had concluded that he must have been mistaken in the value of the black silk robe, and now sent the overdress to make it worth its price.—[Chicago Tribune.

Petrified Human Bodies in Maine.

A few days ago the graves of Mr. and Mrs. Kidder, at Eddington Pond, were opened for the purpose of disinterring and removing their remains to another locality. Mrs Kidder had been dead for eighteen years, while the body of her husband was committed to the earth forty-three years ago. Owing to the length of time which had elapsed, it was anticipated that anything more than dust or a few bones, at most, would be found. Greatly to the surprise of those present, on opening the grave of Mrs. Kidder, who was over eighty years of age at the time of her decease, her body was found as perfectly preserved and the features as natural as on the day of her burial. Her hair was of considerable length, but the last vestige of her burial clothes had disappeared, leaving a solid petrifaction not unlike marble of a grayish tint. Proceeding next to the grave of Mr. Kidder by the side of the other, it was found that, although nearly half a century has passed since he was numbered among the living, his body had also turned to stone, of a deep, rich brown color; but, more singular still, while all the clothing had disappeared from the body of his wife in eighteen years, his body still retained portions of the cloth in which he was dressed for the last time, forty-three years since. In digging for this body no trace of the box or coffin was found, and the petrified remains, of which only the upper part of the skull and portions of the feet had disappeared, lay in several inches of water. When first reached, the workmen supposed they had struck a stone of some kind, and the weight of the body was so great that three men were required to lift it.—"Bangor Whig."

AT Hamilton, Bermuda, a Methodist clergyman and an Episcopal performed a burial service conjointly. Each read from the ritual of his own church, one being devoted to equal rights and the other to what he considered a proper interpretation of law.

A GREAT VARIETY OF NOVELTIES received by last steamer, are now for sale by THOS. WILSON & CO., consisting of Grenadines Yosemites, French Muslins, Prints, Piques and a large assortment of other new Dress material. Shawls, white and colored Skirts, children's Pique and Tassore Costumes, Sun-shades, Ribbons, Feathers, Flowers, Ladies' Silk Scarfs, plain and fancy Dress Buttons, &c. These goods having been bonght direct from the Manufacturers will be sold cheap.

Extraordinary Marriage of a Child.

The Liverpool "Post," of the 18th of June, says:

An extraordinary marriage has been celebrated in the Church of St. Wookos, Newport, between a girl named Elizabeth Jones, of the tender age of thirteen years, and a young man of twenty-three years of age. The husband is supposed to be a street preacher from Britonferry, and the child-wife is the daughter of Mr. Evans Jones, a store-keeper at the Vernon Tin Works. On Sunday night last the two met at the Neath Station, and proceeded to Newport, where they were joined by a sister of the young man. The latter had not before disclosed the purpose which he had in view to his relative, and when she heard of it she uttered an indignant remonstrance, refused to attend the church, and returned to her home. On proceeding to the church the following morning the bridegroom explained the absence of attendants by informing the clergyman that his sister had been suddenly taken unwell. The service was then accomplished and a little girl thirteen years of age married by a priest of the Church of England. The child wife afterward returned to her parents, who were much distressed at her absence and informed them what had happened.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.
CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.
The Public therefore are cautioned against using any other than
DR J. COLLIS BROWNE'S CHLORODYNE.
REMEDIAL USES AND ACTION.
THIS INVALUABLE REMEDY produces quiet, or freshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—
Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Cramp Rheumatism, Neuralgia, Cough, Hysteria, be
The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.
From A. Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months esvere suffering, and when other medicines had failed
Dr. Lowe, Medical Missionary in India reports[Dec 1865] that in nearly every case of Cholera in which Dr Collie Browncs' Chlorodyne was administered the patient recovered.
Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.
Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,
Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequen tfatal results have followed
See leading article, Pharmaceutical Journal, Aug 1, 1859, which states that Dr J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered. Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each.
CAUTION—None genuine without the words "Dr. J. B. Ilis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle,
Sole Manufacturer, J T DAVENPORT,
GREAT RUSSELL STREET, BLOOMSBURY, LONDON.

KEATING'S

THE FOLLOWING
IS AN
EXTRACT FROM A LETTER
dated 15th May, 1872, from an old inhabitant of Hornfngsham, near Warminster, Wilts:—
"I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite: this is owing to taking your Pills. I am 78 years old.
"Remaining, Gentlemen, yours very respectfully, L. S."
To the Proprietors of
NORTON'S CAMOMILE PILLS, London.
jy31w

Daily British Colonist.

SATURDAY MORNING, JULY 24TH, 1875.

L. P. FISHER, 20 and 21 New Merchants' Exchange is our authorized Agent in San Francisco.

Pagan Worshippers.

The action of the City Council in trying to stamp out a great and increasing evil in this Province has evoked—amid many signs of popular approval—some hostile criticism. We need scarcely say that with the principle of the resolution we are heartily agreed. Experience in California and Australia has shown that the Chinese are a most undesirable class of immigrants. And because legislation has failed to confine them to the limits which most people think desirable, viz: that of total exclusion,—we are told that the repressive laws have proved a dead failure. Because the criminal code does not prevent the occurrence of crime, will any one argue that the code should be annulled and men licensed to murder and rob each other? It is not the extinction of crime that legislators hope for when they pass repressive measures. Until the dawn of the promised Millenium—when laws will not be necessary to keep evil passions in check—even the most sanguine lawmaker can only hope to keep crime within certain bounds, over which it will sometimes leap without an apparent provoking cause like a mountain torrent that leaves its old course and marks out a new way for itself. Under the treaty between Great Britain and China we fear that no law to prevent the Chinese landing on our shores could be enforced; but we do believe the way is quite open for legislation to prevent them after they do arrive from being employed upon any Municipal or Provincial work to the exclusion of white laborers. Of course, no Councillor intends, or ever intended, to make the measure inelastic. If a contractor cannot procure white laborers he must e'en put up with Chinese; but no man undertaking work for either Government should be allowed to employ Chinese to the exclusion of whites—as has been the rule in this Province. The other day we showed how the much-contemned Canadian Government got over the difficulty. They simply let it be understood that until the supply of white labor was exhausted "no Chinese need apply" for situations. The white supply still holds out and never a pig-tail has yet been flaunted in the faces of any of the parties now out on the surveys. The threat made of legal proceedings against the Corporation to compel them to employ Chinamen is quite in keeping with the whole line of argument of the pagan worshippers. Imagine the Supreme Court stepping in and declaring the resolution of Wednesday night illegal; the simple course left open to the Council would be to place at the foot of each advertisement calling for tenders these words—"the lowest or any tender not necessarily accepted;" and they could throw out the bid of any contractor who was notorious for the employment of the Chinese without assigning any reason whatsoever for their action. The Chinese evil is a great and growing one, and although we may not succeed in stamping it out altogether if our Municipal officers are honest and are not afraid, we may succeed in confining it to very narrow limits indeed.

New South Wales.

[From the Resident Correspondent of the Alta.]

SYDNEY, N. S. W., June 5th, 1875.—The flagship Pearl, under orders to convey Governor Sir A. Gordon to Fiji, was to have sailed this morning but evidently Commodore Goodenough does not like the look of the weather, and will probably hang about the harbor until it moderates.

The bark Chevert, lately purchased and fitted by Mr. William Macleay, for an expedition to New Guinea, sailed from this port on the 18th ult.

Burglaries and garote robberies have become so frightfully common in and about Sydney lately that the Metropolitan Police are being laughed at for their neglect of duty.

A remarkable case tried at the Sydney Criminal Sessions resulted in the conviction of Mr. D. Macquarrie, ship-builder, and Mr. Bridge, his foreman, for a new crime worthy of being rewarded with seven years in a chain gang. It appears that Macquarrie, head and ears in debt, gave a bill of sale over a steam-launch to his bankers, who placed a clerk in possession on a day Macquarrie was giving some friends a trip in her. The bank allowed the trip to take place, their officer accompanying it. On returning at night, Macquarrie and Bridge, after endeavoring to obtain forcible possession of the steamer, made the engineer pile on the fires, take off the side lights, jump ashore, and cast the bank clerk adrift, under a full head of steam, in a crowded part of the harbor. Fortunately, he knew something about steering, and after dashing round the shipping for an hour, his cries for help brought an engineer alongside, who raked out the fires, and swears that had the solitary voyager let any water into the boiler it would have burst instantly. The perpetrators of this offence got off with three months each.

Narcisse Pelatier de St. Gisls, a boy on board the French ship St. Paul, was wrecked in Torres Straits in 1858, with 300 and odd Chinese on board, all of whom but about seventeen were eaten by the natives. The master and crew left in a boat, and fetched up a short distance north of Knight Island. After procuring water from the main land the started southward, leaving the boy ashore near the water hole. After three days he was found by the natives, who fed him during his whole residence with them, and was treated with the greatest kindness. On the 11th of April he was discovered by Capt. Fraser and the crew of the John Bell. The mate and crew of the St. Paul were picked up by the Rose of Denmark and landed at New Caledonia, seventeen years ago, and their comrade may yet meet them in France, whither he has proceeded.

Heavy gold was struck yesterday in the Prince of Wales claim, at the Burnt Yards, Western District. The reef is four feet thick; a ton of stone brought up it is estimated will yield 400 to 500 ounces, and the stone in the shaft looks even richer. Great excitement prevails.

Governmental Injustice.

EDITOR COLONIST:—About the 9th of January last, during the severe cold weather, I hired my sloop to the Provincial Police Officers to proceed to Rooke and arrest a murderer, at $6 per day. I placed the sloop in charge of Sergt. McCarthy of Esquimalt. The next day I was informed that she had gone ashore on this side of Williams Head and had been abandoned there. I went down with three men to save the sloop. I was forced to put a new bottom in her and make other repairs, at a cost of $325. Owing to the wreck of my sloop I was thrown out of business all last winter. I have made repeated application to the Government to pay me the cost of repair only, and they have refused to do so. I am now summoned to pay the costs of the repairs and am unable to do it. Mine I consider to be a hard case, for if the Government can escape the responsibility of the damages inflicted upon my sloop while she was in the charge of its own officers, no person will in future be safe in assisting to bring criminals to justice.

Yours, etc., JOHN COLLINS,
Owner of sloop "Duncan."

DEATHS.

In this city, July 23d, Joseph Waterhouse, aged 47 years, a native of York County, State of Maine, U. S. The funeral will take place from the Royal Hospital, Pandora street, at 2 p. m. THIS DAY. Friends are cordially invited to attend.

The Hudson's Bay Company.

The following report of the Governor and Committee of the Hudson's Bay Company will be laid before the shareholders on Tuesday next:—The governor and committee have now to submit to the proprietors the accounts of the company for outfit 1873, made up to the 31st May, 1875. The company's share of the profits of the year amounts to £114,992. The total undivided balance on the 31st May, 1875, was £117,889, out of which the committee now recommend a further dividend of 15s per share, making, with the interim dividend of 8s, paid in January last, a total distribution of 23s per share for the year, as compared with 20s in the previous year. The balance to be carried forward after the payment of the proposed dividend will amount to £42,889. The prices realized for furs during the past year were satisfactory, although the quantities were increased by the circumstance of two years' collection of furs from Moose Factory being included in the sales. The cargo per Lady Head, valued in last year's accounts, realized an amount exceeding the valuation placed upon it. The loss of the Saskatchewan steamer, alluded to in a previous report, has effected to some extent the result of the year, which, nevertheless, is satisfactory. In November last the proprietors were informed that, on her homeward voyage from York Factory, the schooner Walrus had been driven on shore at Nottingham Island, in Hudson's Straits, and that a portion of her cargo had been thrown overboard. The vessel arrived home in January with the remainder of her cargo, which was disposed of at the spring sales. The claims on insurances in respect of the cargo amounted to £15,000, of which the company's marine insurance fund had to bear its proportion of £2,430 19s. The premiums earned by the company have been more than sufficient to meet the claim referred to, and the marine insurance fund, which last year amounted to £40,000, now stands, inclusive of interest credited to it, at £41,770. The committee are confirmed in their opinion that it is desirable in the interests of the fur trade and of the company generally to pursue the course which was agreed upon last year with regard to the company taking portions of their marine insurances, and they see no reason to doubt that the result will prove a source of profit to the shareholders. Besides taking portions of the ordinary marine risks, the company have opened policies with their own fund for insuring coasting and other vessels which have hitherto been uncovered—an arrangement which has met with the approval of the officers under the deed poll, who are interested in the profits of the trade. The committee have received from most of the districts encouraging reports of the collection of furs, which compare favourably with those at the corresponding date of last year. Special attention is being given to the question of improving the transport service in the interior by steamers and other means, which, it is hoped, will answer the purpose. The officers are availing themselves of opportunities, as they arise, of extending the general business of the company, the prospects of which are expected to improve with the progress of settlement and the extension of railways. Notwithstanding some drawbacks attending the means of communication with Manitoba, which are, however, being removed by the energy of the Canadian Government, the country is attracting immigrants in large numbers, who appear to be favourably impressed with the conditions offered by the Government for entering upon homesteads on unappropriated lands. With regard to the progress of railway construction, it is satisfactory to state that the Government of the Dominion are rapidly grading the line from Lake Superior to the first navigable waters at Shebandowan, and are also about to proceed with the work on the section between Rat Portage and Red River. They are further prosecuting with vigour the works upon the branch line from Fort Garry to Pembina, with a view of obtaining a speedy connection with the railway system of the United States. The construction of this latter line cannot fail to have a beneficial effect on the value of the company's town lots at Fort Garry, a further quantity of which will be offered for sale during the present season. In the accounts now submitted it will be seen that the balance at the credit of land sales is £995. The receipts and expenses are brought down to the 31st May, 1874, since which date a considerable amount has been received in instalments, subject to deductions for expenses of surveys, taxes and other outlay, the full details of which have not yet been received. The committee have been informed that the Canadian Government intend to enter upon negotiations with the company for the purchase of the bulk of their lands, but beyond this fact they have no knowledge of the views of the Government upon this important subject. The claims of the company for losses sustained at Red River a few years ago have not been yet arranged. The committee are still using their utmost endeavours with the Canadian Government to effect a settlement of these accounts.

Mr. Mackenzie is now in communication with the governing powers of the company, and it is understood that the usual "preliminary skirmishing" is going on preparatory to coming to close quarters, when, no doubt, the interests of the Dominion will not suffer in the hands of the Premier.—*London Cor. Toronto Globe.*

Passengers per Pacific.

The steamship Pacific sailed from San Francisco July 20th with the following passengers for Victoria:

E. McFarland & boy	T. R. Pattala,
V. Ford,	J. H. Howe,
W. Ford,	Jno. Simpson,
E. Gilmore,	R. C. Haynes,
W. H. Dewey,	A. Wallace,
C. C. McKenzie,	Mrs. H. F. Shellan
H. Heywood,	and son,
E Welles & wife,	Chas. Barry,
J. McIntosh & wife,	H. Van Etton,
J. F. Evan,	H. Clapp & family.
Dr. Nuttall,	S. Izat, R. N.,
Maj. W. G. Morris and wife,	R. H. Jones, J. V. Roach,
J. Nolop, wfe & chld,	J. Bicknell,
A. C Gibson,	Miss Bowden,

and 70 in the steerage.

Small-Pox at San Juan.

SAN JUAN ISLAND, July 23.—A large canoe was discovered the other day near the English Camp on this Island. An Indian on being asked stated that they were Fort Simpson Indians and had left Victoria sick with small pox. They were unable to get any further with their canoe. He stated that ten of his friends were dead in the bush near him, he being the only one of the crew living and he was unable to help himself. Food was furnished to him by the settlers. It is said that the bodies are in such a condition that it is impossible to remove them or do anything about them at present.

Excitement at Comox.

The people of Comox are greatly incensed against their sitting member and the Government. It appears that the Government insist upon constructing a road across the flat, where it is not required, and leaving another section, where a road is greatly needed roadless. A meeting has been held and a memorial adopted and sent down to the Government against the proposed road. Let us see if it will fare any better than did the petition against the loop road in New Westminster district.

DEATH OF GEORGE BROWN.—A despatch from Halifax, N. S., announces the death of George Brown, the champion oarsman of America at the age of 36. Brown was, without doubt, the finest sculler ever born on the American continent. He was born in the province of Nova Scotia, and first came into prominence as an oarsman from his connection with the Pryor four-oared crew, of which he was stoke. At the international regatta, at Saratoga, in 1872, he pulled stroke in the Pryor crew, and in the single scull race, on the following day, he carried off second money, rowing second to Joe Sadler, the champion of England, and defeating such noted scullers as Bagnall, Winship and Kelly. So great was the confidence reposed in Brown by his backers, that they published a challenge to row Sadler for the championship of the world—the race to be pulled in American waters. Sadler accepted, but subsequently backed out, and endeavored to induce Brown to row on the Thames. Negotiations have since been pending with this end in view, and had Brown lived the match would, in all probability, have been made. Brown never met his equal in America. He defeated the foremost scullers in the United States and Canada. Bob Fulton, stroke oar of the famous Paris crew, of St. John, New Brunswick, whom James Renforth lost his life in endeavouring to defeat, also had to lower his colors to the Haligolian, and since that time he has been an unchallenged man.

TURNING THE TABLES. — The Toronto *Globe* says:—Additional evidence was collected in the Lincoln and South Essex election cases. In Dorchester, Quebec, Mr. Rouleau, the respondent, was unseated for bribery by agents, while his opponent, the petitioner, was declared disqualified on the ground of personal bribery. This is the first case of disqualification being visited upon a defeated candidate under the new law."

THE steamer Maude arrived from Comox and way ports at 5:30 p. m. yesterday with the following passengers: Mr. and Mrs. Green, Mrs. Richards, Mrs. Young, Mrs. Liddell, the Misses Woods, Miss Wootton, Capt. Nagle, Rev. Holmes, Mrs. Fawcett, Dr. Cluness, Messrs. Geo. Baker, W. A. Robertson, Horetzky, J. Pawson, Jones, Smith, Blackmore, McDonald, and four Chinamen.

BRAVO.—On Wednesday a little boy named Henry Glyde fell into the water while playing near Laings shipyard. His sisters, children of 11 or 12 years of age, seized him by the hands and after a hard struggle pulled him out—insensible but still alive.

DEATH.—Joseph Waterhouse, a native of Maine, U.S., aged 45 years, died at the Royal Hospital yesterday of consumption. Deceased was a packer at Cassiar and was brought down by the Otter last trip for medical treatment.

THE steamer Otter will sail for Wrangel on the morning of the 31st inst. The purser must be furnished with an invoice of all Cassiar-bound goods.

THE bark Whistler, from Burrard Inlet with lumber for Adelaide, had put in at Sydney, N. S. W., for repairs and would probably have to discharge.

A REPORT in London that the Canadian Government intend to purchase the Canadian railways is pronounced to be untrue.

TINNED SALMON.—Advices from Australia state that the market is glutted. Prices $1 80 and $1 86 per dozen pounds.

Municipal Police Court.

[Before A. C. Elliott, Esq., P. M.]

FRIDAY, July 23.

The case of Francis Armstrong was resumed.

The prosecution called J. Boscowitz who continued his evidence. Defendant returned to Victoria on the 17th July; saw him at Cadboro Bay on the 15th on board the schooner Carolena, belonging to the defendant. He told me he had had a fair trip; said he did not know how many skins he had, but thought he had $3000 worth of furs on board with him. Capt. Warren was present at the time. Defendant said the furs were all there and no one would take them from the schooner. Left him and he came in on the 17th. After he had entered at the Customhouse, witness wished defendant to discharge cargo. He said he wanted a settlement before he discharged; witness showed defendant the amount due in the books; he said something about having supplied goods that he had on hand at commencement of arrangement in '71. Witness said he knew nothing about that. Witness saw a determination on defendant's part not to pay him and he told him to go. Had not seen what was taken out of the schooner. The portion seized by Mr. Prevost is on Rhodes' wharf; thought the remainder of the cargo was in Lubbe's store; was not sure about it.

Cross examined by Mr. Drake.—The arrangement between witness and defendant was made verbally, Aug. 25th, 1971; did not think I was to pay any of the expenses for repairs of vessel; was to pay half the labor of running her; thought I had paid for lumber and shingles which defendant took up to build a station; did not recollect giving particular instructions to build it at Kittemat. Did not give any authority to him to build, supplied lumber, etc., on the same terms as the goods were supplied. The furs were to be delivered to witness. He was to put his own price upon them; this was understood by the defendent. Furs are sold by secret tender; thought this the best means of getting at the market value.

Mr. Drake, for the prisoner, said the case was a matter of account. He disputed the accounts altogether. Mr. Boscowitz owed prisoner $2,000 and now claims $3,000 from him, and if he (counsel) could show the Court that the accounts were wrong the case would fall to the ground.

Cross-examination of J. Boscowitz, continued—Knew a man named Austrian John; he might have come down in the trip in 1872. Defendant told witness that he had goods at Kittemat, but did not recollect seeing a list of those goods. The witness was asked as to the value of goods supplied at different times to Armstrong, and also as to the prices for which he had bought the furs, and the amounts which they had realized. He stated that the prisoner understood that he (Boscowitz) was to put his own price on the skins; and he could not say what the goods actually realized, but might be able to hunt up the particulars. He maintained that there was a balance against defendant which, including the last outfit, amounted to $3,351, and that he had received no furs since. When the schooner was ashore he did not pay anything towards getting her off; had furnished prisoner with a statement of account in which the price of each article was mentioned. The only time defendant had made any objection about prices witness had advised the furs to be sent to Rueff's and there sold by secret tender.

C. J. Prevost, sworn—Deposed that he knew the schooner Carolena. On Saturday last saw her at Rhodes & Co.'s wharf, at 2:30 p. m.; her hatches were closed. The hatches were lifted at witness' request and a quantity of furs taken out in his presence; took charge of the skins as Receiver in Chancery.

West Huson sworn—Reside at Alert Bay; came in and anchored at witness' place at Bella Bella in the end of June. Witness went on board the Carolena and had a conversation with defendant about furs; defendant said he had left some furs at the H. B. Co.'s station, Bella Bella, to be shipped by the Otter. Knew nothing about Mr. Boscowitz's agreement. Defendant said he thought he might get a better price for them if they went down on the Otter than if he took them down himself; defendant left in the schooner about the 5th or 6th July. Witness purchased the furs at Bella Bella; paid him $10 to bind the bargain, and offered a bill on Lubbe for a large part of the balance. Defendant sent some Indians and got the furs from the Company's store at Bella Bella. Witness wrote the order at Armstrong's request to the agent in charge at Bella Bella, and the furs were delivered previous to the 3d inst; bought the furs for Mr. Lubbe; showed defendant prices that witness had been getting for furs, and he (defendant) said the prices were better than he had ever got before; witness put the furs on board the Carolena and marked them; came down on the schooner; arrived at Cadboro Bay; it was blowing heavily. Next morning at daylight took witness' furs out and put them in a canoe and brought them into town; landed the furs at Ravanagh's wharf. Armstrong did not come in until the 2nd day after; the furs were at Lubbe's when Armstrong came in; saw Armstrong about Friday or Saturday and told him I had sold them for $2020, but had not got paid for them; was paid for them on Monday last. On same day a part of cargo was seized; the cheque was in witness' name on the Bank of B. N. A. Accounts were not settled between witness and Armstrong; defendant did not know of any partnership between Armstrong and Boscowitz; thought the furs were Armstrong's; defendant said he had sold furs to Boscowitz, but could not get the price for them; was not on board when Boscowitz boarded the schooner at Cadboro Bay. Defendant told witness that he wished to keep the furs till he could get a settlement.

E. Graneini sworn and deposed—Knew Armstrong; spoke to him at the request of Boscowitz; Boscowitz came to witness on Friday the 16th and said he had some suspicion of Armstrong and wished witness to see him and settle the business; saw defendant in the street on Saturday and he said he was going to Mr. Boscowitz for a statement of account; saw him at 1 o'clock on Saturday in witness' own office; saw defendant again on Monday to try and effect a settlement of the account; defendant was under the impression that he did not owe Boscowitz anything; witness advised defendant to settle even at a loss; he proposed to abandon the furs, which were attached, to borrow $200 and pay him and pay $200 more next year if successful; was not sure, but thought defendant said he had sold some furs to Huson; Boscowitz brought a statement of all the items of account; that account was shown to Armstrong on Monday.

Theodore Lubbe sworn—Bought some furs on the 15th or 16th inst; sorted them in Mr. Huson's presence; Huson showed bill of lading shipped from Alert Bay; shipped by Frank Kitimat and consigned to Huson or to E. Grancini; did not remember how much he paid for the goods; on Friday gave Huson a cheque for $2020; also, a cheque for $400; also cash to the amount of $60 or $70, all for the Carolena's cargo; did not know anything as to whether the money had been paid to Armstrong; Armstrong asked him to look at some furs before the schooner was seized; knew nothing of any ownership or right of Boscowitz in any of the furs on the Carolena.

Wes. Huson recalled and examined by Mr. Robertson—Produced list of goods sold to Lubbe; $2020 represented the full value of Armstrong's furs; had sold other furs since; there was no time to sell them on the same day as the Armstrong lot. [Bill of lading produced.] It was in Huson's own writing; had not paid money over to Armstrong, because he found out there was likely to be trouble about it; declined to do so of his own free will. Nobody prompted him to do so.

Adjourned till 11 o'clock a.m. on Tuesday.

Mr. Drake announced his intention of applying to a higher Court on the question of bail.

ASSAULT.

Jos. Pescaro, for assaulting an Indian named Tom, and assaulting the police, was sent to prison for one month.

Bute Inlet Survey.

The Dominion Government steamer Sir James Douglas reached the head of Bute Inlet early on Wednesday morning, where she found Mr. Marcus Smith, who had come down from the interior and had reached the head the day before. The Douglas took Mr. Smith and Mr. Horetzky on board and came on to Nanaimo, arriving there on Thursday night. All the survey parties are well and making good progress. Gamsby has made 25 miles. Tiedeman's trail party has been much bothered by the desertion of Indians. The Douglas lay at Nanaimo when the Maude left to allow Mr. Smith time to select a spot for a wharf on which to land the steel rails.

PHRENOLOGY.—Prof. Kennedy having returned from Nanaimo, will be at his room No. 13 at the Driard House again for a few days.

THE steamer North Pacific left at 10 o'clock yesterday morning with about 50 passengers.

THE steamer Favorite started for the Sound at 10:30 yesterday morning with a score or so of passengers and the mails.

THE Duke of Westminster has purchased the famous stallion Doncaster for 13,000 guineas.

THE annual pic-nic of the French Benevolent Society will take place on Saturday, 7th August.

THE steamer Otter left last night at 8 o'clock for Chemainus to tow down a raft of piles for the H. B. Co's new wharf.

MME. BISHOP was playing to great houses in Queensland.

SPIRITUALISM is said to be spreading with great rapidity in Russia.

English Mail.

It appears from a statement made to Mr. Benson in the Southwark Police Court that in that part of London women are being paid for making coloured shirts at the rate of one penny each, and out of that sum they have to find cotton and use their own sewing machines.

In reference to the deposition of Mayor Buckley, of Ashton, from his office for being five months away on his wedding tour, the wags say that at least sixteen of the Ashton-under-Lyme Town Councillors are bachelors and the victims of disappointed affection, and that they have acted out of pure spite!

A market for the sale of old clothes has been opened in Glasgow by the municipal authorities. The market is the largest of the kind in Great Britain. The rent is £2,000, and the receipts amount to £70,000 per annum. The trade is chiefly in the hands of Irish people.

It is stated that Mrs. Charles Kingsley will probably have the next vacant set of rooms at Hampton Court Palace. There are several names before hers on the list, but, considering the case, and that she has to leave her two homes of Westminster and Eversley, it is considered likely that the Queen will grant this favour. It is believed that the Canon has left many fugitive essays which will be published during the autumn.

Here is the last outcome of the Tichborne mania. A Tichborne and Magna Charta Association has been founded at Sheffield, and, among other things, have taken up the cause of a local claimant to some large estates. A week or two since the association, which has of course no confidence in the courts of law, authorized the President and other delegates to take possession of the property." They accordingly made a formal entry, and yesterday they began to cut and carry off grass in a meadow belonging to Earl Fitzwilliam.

The other day, at Nenagh, Ireland, two passengers having been conveyed a certain distance on a hired car, finding when they were about to leave it that the driver was drunk, tied him to the car so that he might not fall off on his return home. The horse took the car and driver back to the place from which he had started, and it was then found that the driver, in struggling to free himself from the cords, had become strangled.

A writer in one of the London papers suggests that during the hot weather shop-keepers on such streets as Regent street or Piccadilly might stretch an awning or velarium right across the street from the houses on each side. That the whole street would be converted into a shady and cool promenade, and would be more popular than ever, to the advantage of the shop-keepers, who might also suspend advertisements from the awnings at intervals, and otherwise benefit by the idea.

The other day, at Nenagh, Ireland, two passengers having been conveyed a certain distance on a hired car, finding when they were about to leave it that the driver was drunk, tied him to the car so that he might not fall off on his return home. The horse took the car and driver back to the place from which he had started, and it was then found that the diver, in struggling to free himself from the cords, had become strangled.

The most complete specimen of the living biblomaniac is a Mr. Crossley, of Manchester, who has a library of 50,000 books, and actually knows what is in them. He has the only complete set of all the editions of De Foe, and sundry other and earlier writings. The British Museum and other great libraries are watching for his death. Mr. Crossley will answer any question about any book or pamphlet ever published in England, give its date, tell anything special in it, and without touching a volume. He is eighty; he was a personal friend of Charles Lamb and other literary men of past generations; and yet, with the exception of a few excellent papers contributed to the *Retrospective Review* in 1820, he has written nothing, and when he dies a great bibliographer will perish.

Queensland.

The most important social event that has of late occurred in this Colony is the great influx of Chinese, attracted to the northern ports by its golden wealth. The Mongolian deluge is received with indignation by the digging population, and with grave fears by all. The Port Denison 'Times' of the 8th ult. mentions the arrival of the steamers Japan and Scotland. These vessels have landed 2169 Chinese and 1000 tons of cargo, principally rice, at Cooktown. According to the "Times," the Chinese say that they will soon make Cooktown, at the mouth of the Endeavor River, a little Canton, and that as they have plenty of money and are the most liberal bidders for town allotments and town properties, and are giving fancy prices for them, it is probable that Cooktown will resemble more a town in the Celestial Empire than a British settlement. It is said that the rush from China has received a decided check from the telegram sent from Brisbane, which announced that the Queensland Government intended to levy a poll-tax on Chinese immigrants of £4 per head, and that each Chinaman would be charged £8 for a miner's right.

The Commissioners are not unanimous upon the question of the establishment of a University in Brisbane, although the report recommends the immediate foundation of a University, with a fixed annual endowment.

A proposition has emanated from the Government to exclude the Australian Steam Navigation Company from any participation in the carrying of mails upon our coast line. Resolutions have been tabled offering £10,000 per annum to any company whose headquarters shall be in Queensland to take weekly services from Brisbane to Cooktown, via way ports.

The proposed graving dock at South Brisbane is to cost £75,000, exclusive of pumping machinery, about £6,000.

The Sybil has arrived at Marysborough with 113 South Sea Islanders, and reports that extreme starvation exists in the Islands from the combined effects of severe hurricanes, continued earthquakes and large tidal waves.

Splendid samples of gold have arrived at Cooktown from the Palmer Reefs, having been got from 16 to 90 feet below the surface.

Victoria.

Parliament was opened on the 25th ult. The Governor's speech states that the education system is becoming firmly established, and is cherished by the people as a most valued national institution; upward of one hundred buildings are still required to extend the system to places where there are not schools, and six hundred buildings to replace those held under lease and capitation allowance. It was the intention of Government to submit proposals to enable the Education Department to erect the necessary buildings. The necessity of establishing a first-class training institution is under consideration.

It is the intention of the Victoria Government to submit resolutions to the House concerning the annexation of New Guinea by the Imperial Government.

In the Legislative Assembly Mr. Casey has introduced an amended Land Bill, and in a long speech detailed the working of the present act, and where amendments were required. The new bill extends the area of selection to six hundred and forty acres, provides for non-residence in certain cases, limits sales of land by auction, introduces the leasing system, readjusts and increases pastoral assessment, provides that certain claims in land cases be referred to the County Courts for settlement.

Hugh McGregor, fourteen years of age, has had presented to him by the Governor the bronze medal of the Humane Society for having three years ago, at different times, saved three boys from drowning in the Murray river.

The Commissioners have decided not to open the Melbourne Exhibition until September 2d.

A circular has been issued to Magistrates directing the exercise of greater discretion in sending children to the Industrial Schools, as recently the Brighton Bench sent a child there of seven years of age for stealing two apples.

South Australia.

The City Council of Adelaide passed a vote of censure on Mr. A. C. Chambers for hoisting the American flag above the Union jack at a recent Good Templars' demonstration.

The Gothenburg Relief Fund is now practically closed. It has reached the noble sum of £9100.

SAN FRANCISCO CHRONICLE.—Mr. A. J. Pinkstone, traveling agent for this leading, excellent and enterprising journal is in this city, having arrived by the Pacific. He will wait upon our citizens during next week and solicit their subscriptions to the "live" journal he represents.

A. GILMORE has just received a large invoice of *Oregon Tweeds and Flannels*, also, a large lot of *White Patent-fitting Shirts*, which will be sold CHEAP. Also, *Overcoats and Raglans, Boys' Clothing* and *Hats* of all sizes.

MILLINERY. — A splendid assortment of the latest styles of Bonnets, Hats, &c., for Ladies and Children at London House. All millinery orders at this establishment are now executed by a first-class Milliner from the West End of London, who has recently arrived in the Province.

PIANOFORTES TUNED by DIGBY PALMER Thirty years' experience—Orders left at Fort street, or at T. N. Hibben & Co.'s Government street.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Province.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia and Mandrake with the Iodides of Potassium and Iron makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of the same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produced disappear, such as Ulcerations of the Liver, Stomach, Kidney, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.

FRENCH MEDICINES

PREPARED BY

GRIMAULT & CO.,

PHARMACEUTICAL CHEMISTS,

8, RUE VIVIENNE,

PARIS.

OF all the medicines offered to the public for many years past, none have met with such favorable reception, or been so generally approved by the Medical Profession, as those prepared by Grimault and Co.

The model laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Léconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant of Dr. Claude Bernard, Professor of Physiology at the College of France, offer guarantees to be found in no other establishment.

NURSING---PREGNANCY---EXHAUSTION.

Busart's Lactophosphate of Lime Preparations.

The preparations having Lactophosph e of Lime at their base, known as Dusart's Wine and Syrup are the most valuable tonic restoratives known. They promote the formation and the nutrition of tissues, render nurses' milk more rich and plentiful, and aid the formation of the infant during pregnancy. They stimulate the appetite, agree with feeble persons, convalescents, old people, and especially with children to counteract the tendency to rickets.

GRIMAULT & CO'S

Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration, and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault and Co., on bottles of an oval shape, the syrup being always of a rose colour.

GRIMAULT & CO'S

Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious disease.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures which result from the use of injections having a metalic basis.

Gentlemen Electors of Lillooet District.

YOUR PRESENT REPRESENTATIVES to the Provincial Parliament having served their term, you will be called on to elect two others to represent the district for the next four years. Gentlemen, I think that you will agree with me that a change in your representation will undoubtedly benefit the district, I therefore offer myself as a candidate for the representation of your district in the next Parliament, and pledge myself, if elected, to serve you in truth and honesty and to the best of my ability, leaving no stone unturned in trying to secure the welfare and interests of the district and country in general. Being a comparative stranger to some of the electors I feel it my duty, as far as this notice will allow, to acquaint them with my reasons for soliciting their suffrages. Being a Nova Scotian by birth and bred, as it were, under Responsible Government, and knowing and feeling that Responsible Government, when honestly and justly administered, is the best Government yet given to a people. Having spent the last 24 years in traveling through California, Australia, New Zealand and British Columbia—the last 14 years spent here, and having seen and felt the evil effects of an arbitary Government, I therefore feel that experience has taught me which is the best Government. I am therefore prepared to uphold a Government who will give no monopolies in forest, field, mines or fisheries, who will equalize taxation, economize the treasury, immediately survey the public lands, give free grants to actual settlers, and a just franchise to all British subjects; seek indemnification for nonfulfilment of Terms of Union in regard to railroad through British Columbia, and legislate so as to remove all obstacles on our part to the commencement and completion of the railroad through British Colmabia. Gentlemen, these are some of the subjects that direct legislation, and you must send men who are determined to see the evils which now crush the country remedied as soon as possible. Gentlemen, if you think I am worthy and capable of representing you in Parliament and do me the honor to accept my services, and elect me as your representative, I can assure you your confidence will not be misplaced.

I therefore beg to remain yours to command,

je13dw JOHN E. LORD, Lillooet.

Electors of Cowichan District.

GENTLEMEN:—I beg to offer myself as a candidate for the representation of this district in the next Parliament. With most of you I am personally acquainted, to others among you to whom I am not known I beg to state that I am an Independent candidate, belonging to no political party.

I trust to be able to see most of you before the election takes place, and should you do me the honor to return me as one of your representatives I pledge myself to serve you to the best of my ability.

I will support any measure calculated to give to British Columbia a Modified Tariff, which I think ought to be granted us as part indemnification for the non fulfilment of the Terms of Union.

I will strongly advocate retrenchment in the public expenditure. I consider the completion of the Trunk Road of great importance to the East Coast settlements and that no Government ought to be allowed to neglect it. I will urge the immediate settlement of the Indian land question and the opening of the 20-mile belt on the Island for immediate settlement.

I remain, Gentlemen, your obedient servant,

jy5dw W. Hy. LOMAS.

NOTICE TO MARINERS.

No. 4 of 1875.

POINT ATKINSON REVOLVING LIGHT.

Notice is hereby given that a Lighthouse has been erected by the Government of Canada on Point Atkinson, at the north westerly entrance to English Bay and Burrard Inlet in the Straits of Georgia, British Columbia.

Latitude 49 deg. 19 min. 42 sec. N.

Longitude 123 deg. 15 min. 54 sec. W.

A Revolving White Light on the catoptric principle, elevated 119 feet above high water, will be exhibited on 1st May next. The light will show at intervals of one minute, making a complete revolution in two minutes.

The tower is a square building with dwelling house attached, painted white, elevated 40 feet from summit to centre of Light. The Light will be visible round an arc of the horizon from the entrance to Burrard Inlet to an E. by N. ¾ N. bearing, and should be seen in clear weather 14 or 15 miles distant.

The Light should not be brought to bear to the Eastward of North by vessels in the Straits, as this caring will only lead clear of Sturgeon Bank off Fraser River.

The Bearings are magnetic.

The Light is for coast purposes and to indicate the entrance to Burrard Inlet.

WM. SMITH,

Deputy Minister of Marine and Fisheries.

Ayer's Hair Vigor,

FOR RESTORING GREY HAIR

TO ITS NATURAL VITALITY & COLOR

Advancing years, sickness, care, disappointment, and hereditary disposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth, and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stabilished; thin hair thickens; and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions diseases o the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.
